OPENING PLENARY...

But it's Different Here!

1:30pm Room: Sauganash E

Jay Dominick, Vice President for Information Technology and CIO at Princeton University

Dr. Dominick will give his perspective on the art and the science of delivering IT support across a range of different Higher Ed organizations. From Big Public to the Ivy League, successful IT service organizations share many of the same characteristics, but are all different in important ways. Dr. Dominick has 20 years of experience leading very different types of IT organizations.

Hmmmm, looks like someone is getting a lot of drink tickets!

Good morning! The conference elves have been busy with preparations over the weekend and we are ready to go! After a year of planning, this is officially IT!

For those of you attending the Executive Seminar, you won't be disappointed. It's going to be worth getting up for! For the rest of you, enjoy your morning and join us for the plenary after lunch. We'll wrap the day up with our first set of Management discussion sessions and Birds of a Feather opportunities. This year we have 3 platinum contributors who will each have their own Birds of a Feather session during the week. Be sure to visit Mozy's BOF this evening.

Enjoy one of the many great Chicago restaurants for dinner tonight and then join us back at the Hospitality Suite, located in LaSalle on the 15th floor. We've brought back the ever popular "Cards against Humanity" as well as some other games. Or just grab a drink from the bar and kick back and enjoy the spectacular view as you catch up with old friends. —Lisa Brown, Chair

mozy

Stop by and visit with the folks at Mozy during their BOF. Check the registration desk for the location!

Visit the Hospitality Suite!

Our hospitality suite is located in the LaSalle room and you can take drinks in from the bar...

It's a great place to unwind or wind after dinner with old and new friends. Join a board game or just have a great conversation with friends...

SIGUCCS 50

Stop by and visit the SIGUCCS 50th Museum room which will be open Monday afternoon .

"Educom was formed in 1964. OCLC a few years after that, and CAUSE in the mid '70s. SIGUCC was the first professional organization for the higher education IT "industry."
-John Bucher, Oberlin

DINNER SIGN UP!

If you are interested in getting a group together for dinner, create a dinner sign up, leave the info at the registration desk and then others can join for dinner. This is a great way to meet new people!

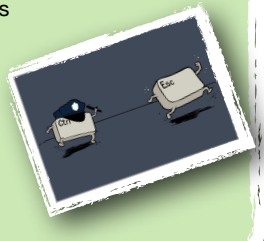

Mentoring Program 2014

We will be accepting members into the Mentoring program for 2014 from now until November 30th. Please complete the request form if you would like to participate in our next year's program.http://tinyurl.com/siguccsmentor14

Monday BOFs!

Please join one of the BOF sessions , 5-6pm, before you head out for dinner:

Check the registration desk for sign-up sheets with the location so you know where to go after the last sessions.

Papers in the Digital Library

All conference papers will be available in the ACM Digital Library until December 8, 2013. After that deadline, only SIGUCCS members will have access to this conference's proceedings.

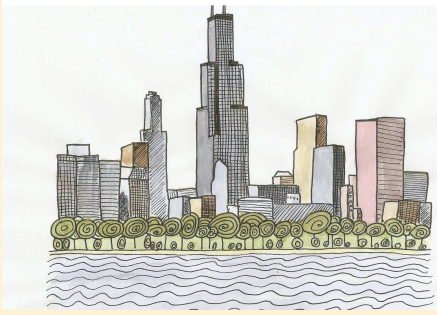

dl.acm.org

Got Food?

Across the street from the hotel is Merchandise Mart. The food court there has many delectable and non-delectable items. Arby's, Billy Goat Tavern & Grill, Habanero Grill, Foodstuffs, Mezza Mediterranean Grill, Quizno's Subs, Tokyo Lunch Boxes, Tony & Bruno's Café italiano are a few.

Why Chicago?

The reason that we are in Chicago, in November, for the 50th celebration is because the first User Services conference was held here in 1972.
